BIO

Standing by my work is what I do every day. I am very proud of what I am able to achieve when I set my mind to it. After spending my day as a web developer, I enjoy working on passion projects such as: learning new technologies, reading articles to stay up to date on best coding practices, and reaching out to other developers in the field. I have a deep passion for software development.

TECHNICAL EXPERIENCE

ActionVFX, Johnson City — Web developer

February 2020 - PRESENT

Develop and maintain three web applications (actionvfx.com, cms.actionvfx.com, creatorvault.com) using a variety of technologies on the front-end and back-end. Plan and strategize large projects with a small team of developers in an Agile way. Technologies used: Ruby, Ruby on Rails, Node.js, React, TypeScript, JavaScript, Redux, Jest, TestCafe, RSpec, JQuery, SASS, HTML, CSS, Electron, Foundation CSS, Spina CMS, PostgreSQL, Redis, AWS, Git, Heroku, and Docker.

Bros Management INC., Knoxville — IT Support Manager

February 2018 - February 2020

Provide technical support for nine McDoanld's Restaurant locations and in an office environment. Oversee a team of technicians located at different sites for best accessibility.

PORTFOLIO

ActionVFX.com — Foundation CSS, SASS, JQuery, React, ERB, Node.JS, Ruby on Rails, Postgresql, AWS, and Spina CMS
