## BIO

Standing by my work is what I do everyday. After I spend my day working as a Full-Stack Developer, I love working on side projects and reading/practicing new software topics/techniques. I have a deep passion for software development and design.

## TECHNICAL EXPERIENCE

### ActionVFX, Johnson City — *Web developer*

February 2020 - PRESENT

Maintain existing web applications while developing new architecture components to help scale with performance requirements. Help plan and build new Ecommerce store front and APIs. Tech stack: Ruby on Rails, Node.js, PostgreSQL, Redis, DigitalOcean, Heroku, AWS S3, AWS EC2, Docker, Electron.js, Typescript, Javascript, React, Redux, JQuery, Foundation CSS, RSpec, Jest, SASS, HTML, CSS, Spina CMS.

### Bros Management INC., Knoxville — *IT Support Manager*

February 2018 - February 2020

Provide technical support for nine McDoanld's Restaurant locations and in an office environment. Oversee a team of technicians located at different sites for best accessibility.
